PODBRDO – ZIBELKA GORSKEGA TEKA

PODBRDO - THE CRADLE OF MOUNTAIN RUNNING

TEK NA ČRNO PRST - Prvi gorski tek

MOUNTAIN RUN TO ČRNA PRST- The first mountain run

V Podbrdu je bil 9. avgusta 1970 na predlog predsednika Planinskega društva Podbrdo Ivana Anderleta izpeljan prvi organiziran gorski tek v republiki Sloveniji, takrat imenovan kros.

Proti vrhu Črne prsti so se pognali le trije domačini, pionirji gorskega teka: Marko Dakskobler (1:01:00), Peter Čufer (1: 02:00) in Ivan Čufer (1:06:00). Dogodek je bil uradno označen kot neetičen, tako da so naslednjega organizirali šele 2. septembra 1995. Od takrat ga Planinsko društvo Podbrdo v sodelovanju z Gorsko reševalno službo Tolmin in Občino Tolmin organizira vsako prvo soboto v septembru. Leta 2007 je bil tek poimenovan po pobudniku prvega teka.

Za prvega v republiki Sloveniji pa je bil uradno potrjen šele leta 2010 ob 40. obletnici prvega teka.

Proga z dolžino 6,3 km in višinsko razliko 1320 m se nenehno vzpenja. Po startu pri odcepu ceste za Trtnik se požene do centra vasi, nato pa prestopi na markirano planinsko pot, ki vodi na vrh Črne prsti.

Tek na Črno prst je vključen v pokal Primorski gorski teki. Od leta 2013 sestavlja tudi Pušeljc gorskih tekov, ki ga dopolnjujejo še tek Kopačnica–Blegoš–Kopačnica, tek na Ratitovec in Podbrdo Trail Running Festival. Tekači so ga označili za enega najlepših gorskih tekov v Sloveniji.

On 9 August 1970, at the proposal of the President of the Podbrdo Mountaineering Society, Ivan Anderle, the first organized mountain run in the Republic of Slovenia, then called cross-country, was held in Podbrdo.

Only three locals, pioneers of mountain running, ran towards the top of Črna prst: Marko Dakskobler (1:01:00), Peter Čufer (1:02:00) and Ivan Čufer (1:06:00). The event was officially labeled unethical, so the next one was not held until 2 September 1995. Since then, the Podbrdo Mountaineering Society, in cooperation with the Tolmin Mountain Rescue Service and the Municipality of Tolmin, has been organizing the event on every first Saturday in September. In 2007, the run was named after the initiator of the first run.

However, it wasn't officially confirmed as the first in the Republic of Slovenia until 2010, on the 40th anniversary of the first run.

The 6.3 km trail with an altitude difference of 1320 meters is a constant ascent. After the start at the turnoff for Trtnik, it runs to the centre of the village, and then crosses onto the marked mountain trail that leads to the top of Črna prst.

The Mountain Run to Črna prst is part of the Mountain running cup of Primorska. Since 2013, it has also been included in the set of mountain runs called "Pušeljc gorskih tekov" together with the Kopačnica - Blegoš - Kopačnica Run, the Ratitovec Run and the Podbrdo Trail Running Festival. The runners described it as one of the most beautiful mountain runs in Slovenia.
